PROPOSAL · 51 EAST HOUSTON STREET · NOLITA · OCTOBER 2026

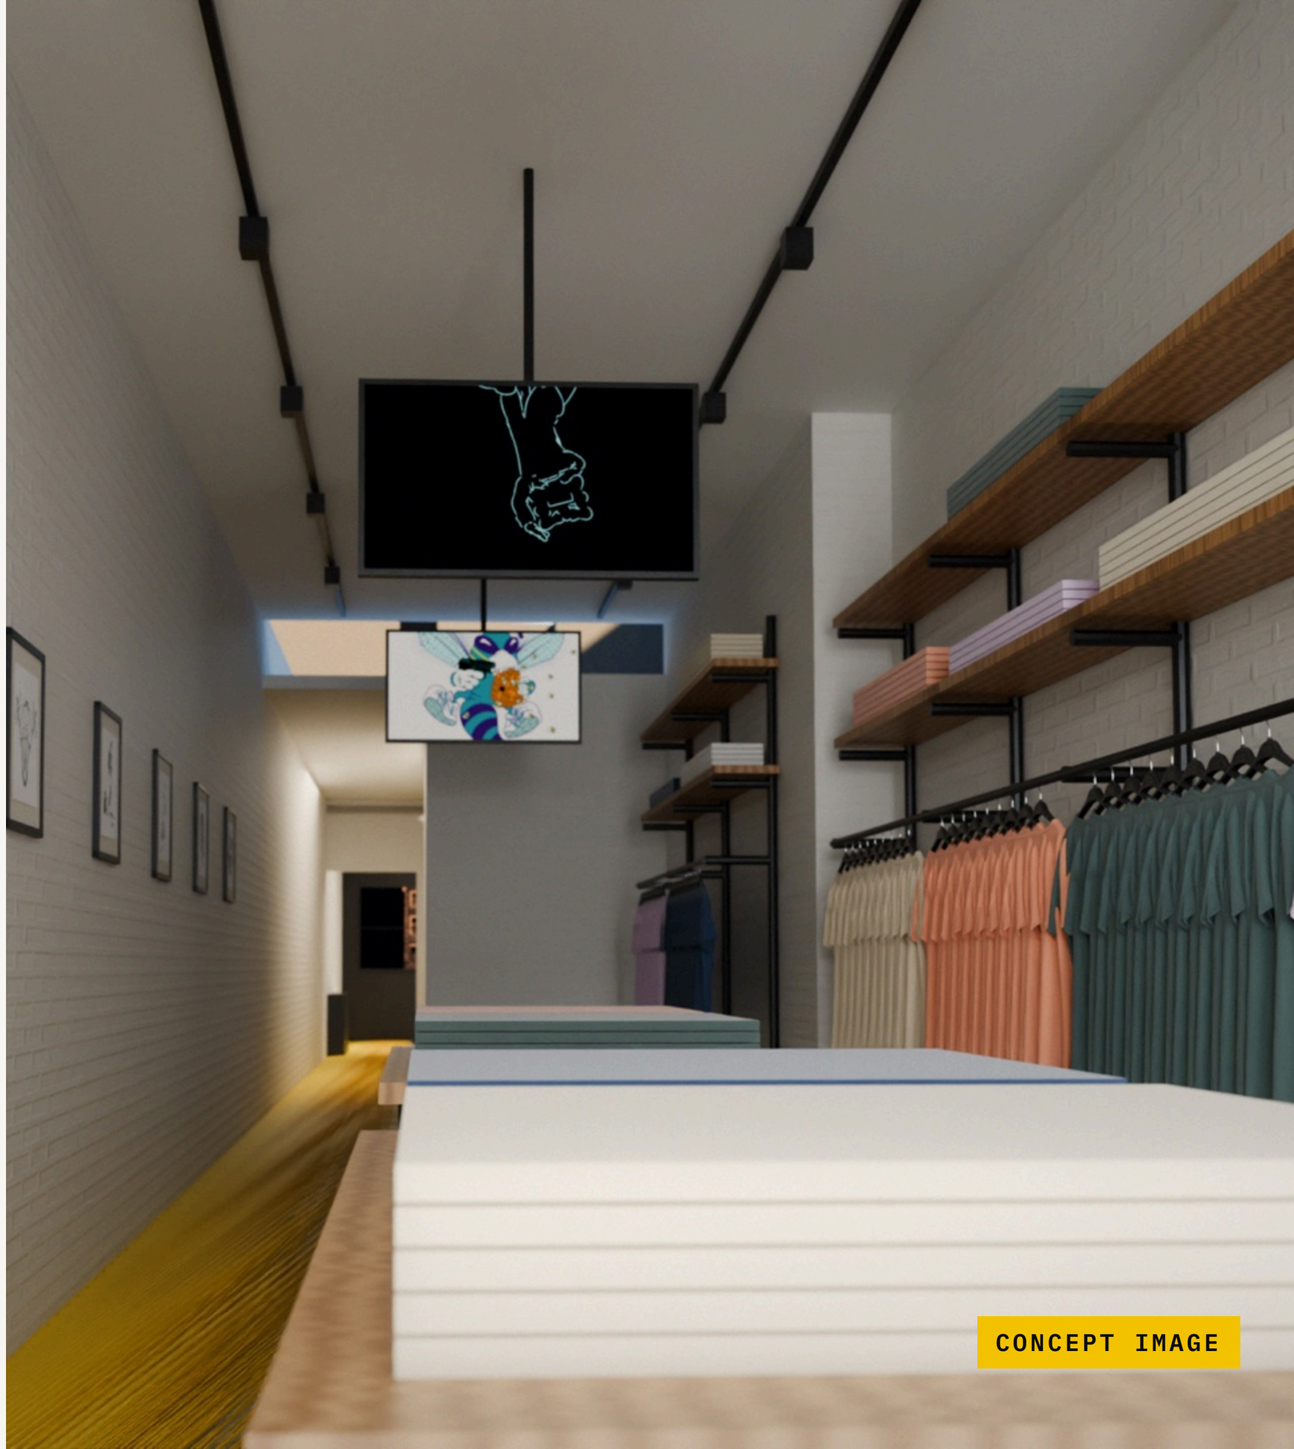

PJ O'ROURKE II
AT 51 EAST HOUSTON

01 · THE PROPOSAL

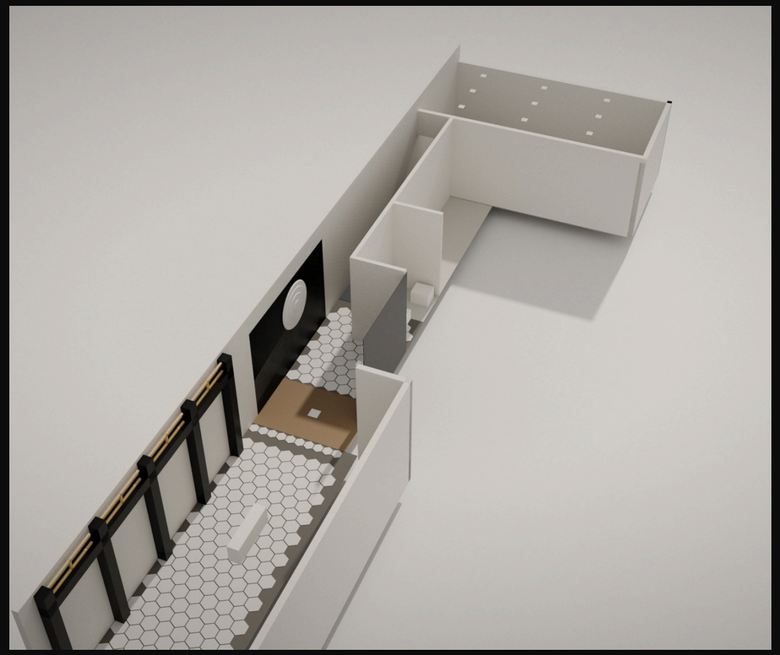

A LONG ROOM. PAINTED WHITE. THEN THE WORK.

A shop 68 feet deep and 10 feet wide between Mulberry and Mott, with a storage room behind it. A white box today. A gallery you walk down, with a screen at the end of the sightline.

LISTED BY MERIDIAN RETAIL LEASING AT 1,400 SQ FT

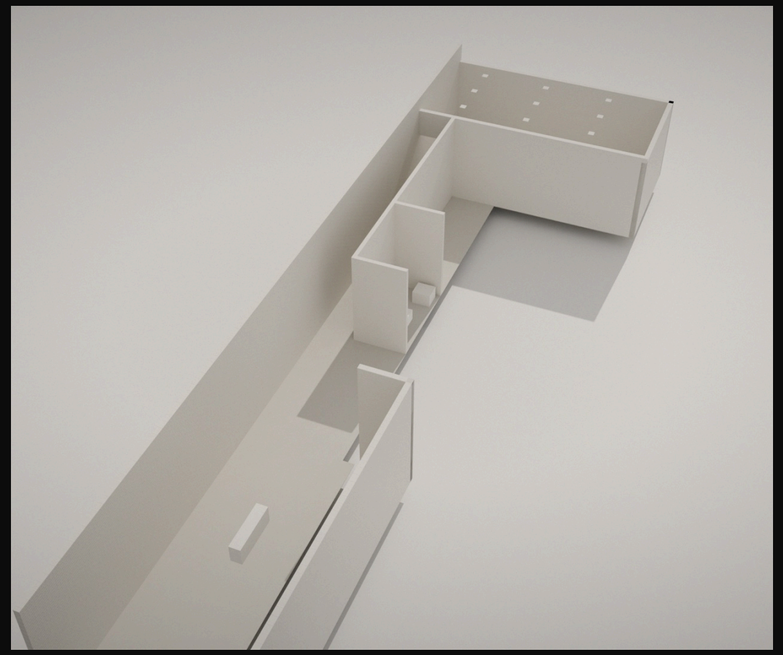

PEEL IT BACK. BUILD IT OUT.

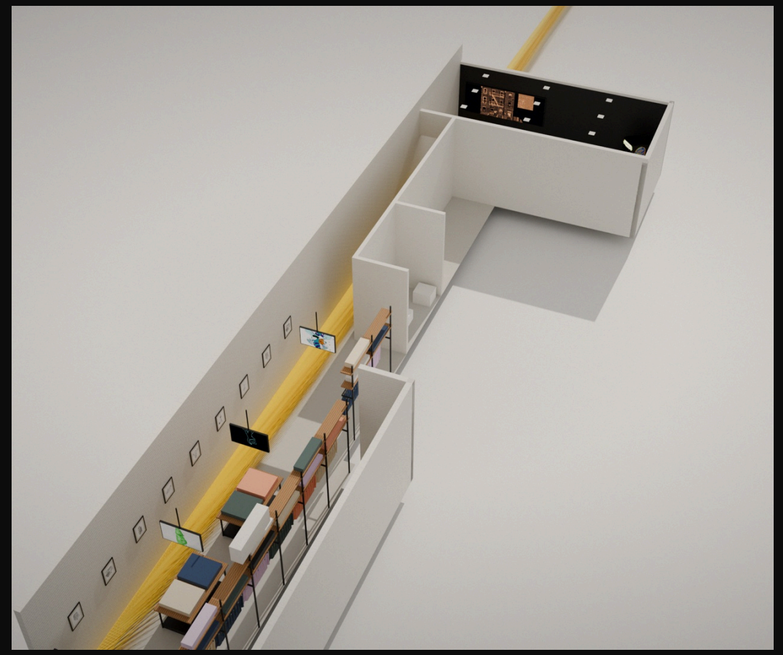

AS FOUND

Hexagon marble, a strip of wood, a black-and-white tile wall, steel and timber, grey slate at the back.

THE WHITE BOX

Every finish lifted. White walls, one pale floor, the track lighting that is already there.

BUILT OUT

Prints on the east wall, tees on the west, two oak tables, fifteen screens, the yellow strip down the floor.

03 · THE WALLS

A GALLERY THAT SELLS THE SHIRTS

EAST WALL

Nine of PJ's line drawings in black 16 by 20 frames, one level row, above the yellow strip.

WEST WALL

Pipe and plank. His tees on hangers, one colourway to a bay.

04 · IN THE ROOM

TEES. PRINTS. ARCADE.

Cream, navy, lilac, moss and peach, with his art on every one. Oak tables carry the folded stacks. A Galaga cabinet sits kitty-corner at the back.

15 SCREENS. ALL PJ.

VIDEO WALL

Six panels on the black back wall of the storage room, seen down the whole corridor through the doorway. They show one picture, then six, then prints. Three more hang on poles, and three face East Houston from the window.

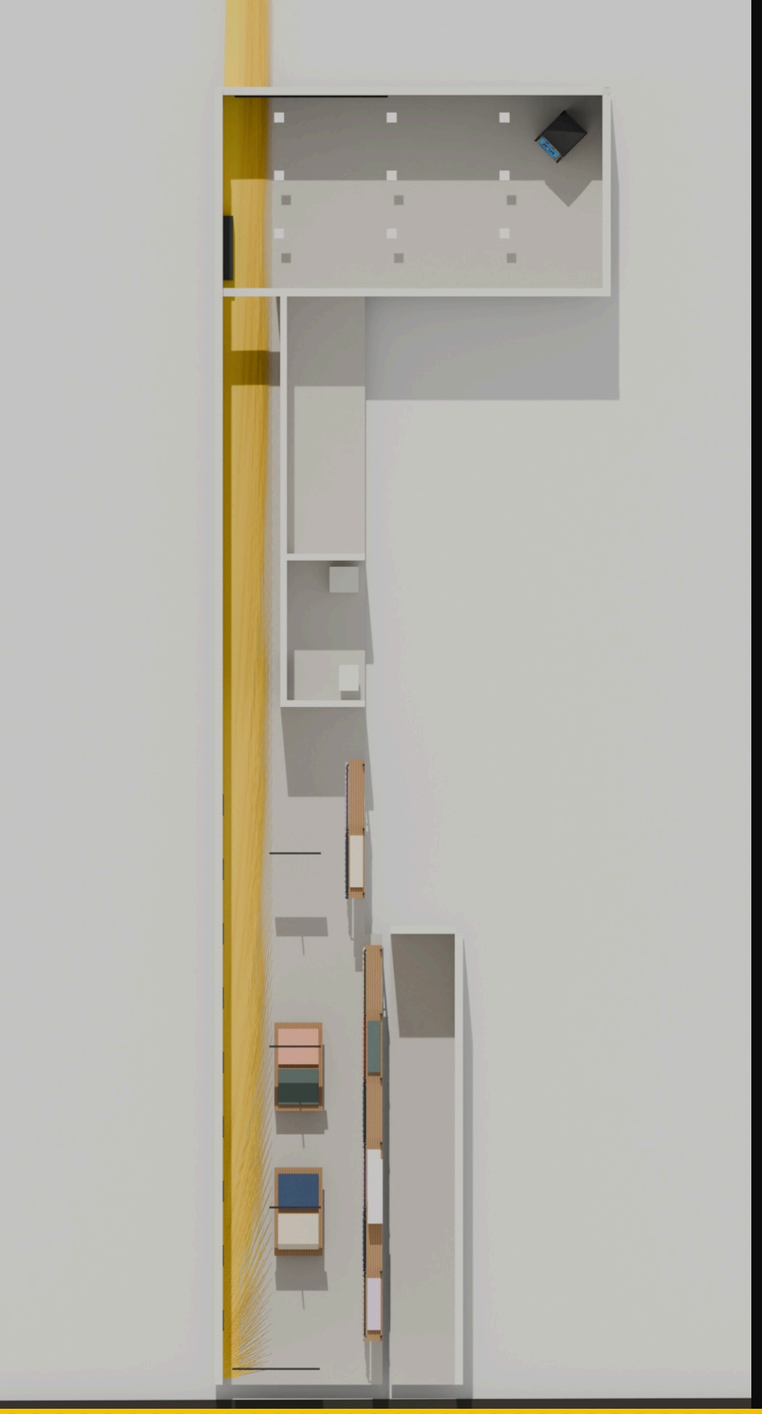

06 · THE DETAILS

THE PLATFORM EDGE, INDOORS.

The yellow tactile strip is the edge of every subway platform, where PJ started. Here it runs the length of the east wall: 79 feet, from the glass through the doorway to the back wall.

Black paint on the storage room's back wall, the track, the pipe and the frames. White everywhere else. The work does the colour.

07 · MEASURED, NOT GUESSED

WE ALREADY KNOW THIS ROOM.

Every rendering is built from a to-scale 3D model, drawn from Meridian's plan and read against a walk-through video of the space. Dimensions are read off those and are approximate.

FRONT ZONE	**9 ft 11 in wide, 26 ft from the glass**
BACK ZONE	**8 ft 10 in wide, to 67 ft 7 in**
BATH	**8 ft 8 in x 5 ft 3 in, west wall**
PASSAGE PAST THE BATH	**about 3 ft 6 in wide**
STORAGE ROOM BEHIND	**12 ft 6 in x 24 ft 6 in**
BUILDING	**1900 walk-up, 5 storeys, 24.6 ft lot**

THE PLAN IS AN ARCHITECT'S DRAWING OF PROPOSED WORK, SO THE VIDEO WINS WHERE THEY DIFFER. CEILING ABOUT 11 FT AT THE FRONT, LOWER AT THE BACK, ESTIMATED. NOT DRAWN: MILANO'S AND THE BUILDING'S ENTRANCE HALL. MERIDIAN LISTS 1,400 SQ FT; THE CITY LISTS 705 SQ FT OF RETAIL ON RECORD.

CROSSROADS OF NOLITA, NOHO AND THE LES.

149

metres to the B, D, F, M and 6 at Broadway-Lafayette and Bleecker.

10,961

people an hour at the weekday peak through the two nearest stations, MTA, summer 2026.

22,386

cars a weekday eastbound on East Houston by the door, DOT count, 2016.
